

Homework at Ryecroft

We are sending homework home to reinforce learning at school.

Reception

Children will bring phonics, letter formation and counting to 10 work home. They will also be asked to practise writing their names.

Year 1-6

We are concentrating on learning the basics for homework. Times tables, reading, spelling and grammar and punctuation work. Each week children will have a reading book, weekly spellings, grammar work and to learn their times tables.

A new online times table game called Times Table Rockstars has been launched in school, to engage the children and make them want to learn. The game can be downloaded to any device. Have a look at the programme

NET results improving across the schools

We are pleased to tell you that throughout the 20 NET schools, we have improved the results substantially this year.

The average scores of the primary and secondary were in line with national figures.

The improvement of the schools will continue as the academies work closer together.

Events at Ryecroft

On Friday 28 September we will hold a cake sale for Macmillan. Please bake some buns so we can sell them to the children for this amazing charity.

Monday 8 October is the day when the Salvation Army will lead assembly and celebrate Harvest. We ask that the children bring in some food (a tin or packet) to donate to the local food bank.
